

### Detail Description or Construction

#### Conductor

Soft flexible copper conductor.

#### Insulation

Polyvinyl Chloride (PVC) 60°C.

### Application

CT cords are recommended for interior wiring installations, small lighting devices, and household appliances where more flexibility is required.

### Standards / Testing Specifications

- UL - 62.

### Installation

Residential internal facilities of low consumption, for timbre connection, alarms, systems of intercommunication and telephone extensions.

Conductor Size	Number of Wires	Insulation Thickness	Weight (Approx)	Standard Package
AWG		mm	kg / km	m / rolls
2 x 20	7	0.8	16	100
2 x 18	10	0.8	20	100
2 x 16	16	0.8	41	100
2 x 14	26	1.2	72	100
2 x 12	41	1.2	100	100
2 x 10	65	1.2	148	100

**Note:** Data shown is approximated and subject to normal manufacturing tolerances.  
**Color:** White/Black; White/Red; White/Blue.
